

S/N 10/736,027

Response to Final Office Action Dated 7/20/2005

AMENDMENTS TO THE CLAIMS

In accordance with the PTO's revised amendment format, a detailed listing of all claims has been provided. A status identifier is provided for each claim in parentheses following each claim number. Changes to the claims are shown by strikethrough (for deleted text) or underlining (for added text).

In the Claims:

Claims 2-5, 11-14 were previously pending.

Claims 2 and 11 are amended.

Claims 3, 4, 5, 12, 13, and 14 are canceled.

No new claims are added.

Pending claims: 2 and 11.

S/N 10/736,027

Response to Final Office Action Dated 7/20/2005

Claims:

1. (Canceled)
2. (Currently Amended) A secure ~~gun~~ firearm display, comprising:
a rigid restraint for holding a ~~gun~~ the firearm around a breech of the
firearm, such that at least 60% of a circumference of the breech is surrounded
by corresponding parts of the restraint at substantially equal distances of
approximately 3 millimeters or less between each part of the surrounded breech
and corresponding parts of the restraint;
wherein the restrain is insertable through a trigger guard of the ~~gun~~
firearm, such that ~~and around a stock of the gun,~~ wherein a curvature of the
restraint avoids a trigger of the firearm, avoids a trigger guard of the firearm,
avoids a bolt of the firearm, avoids a gunsight of the firearm, and avoids an
optical scope of the firearm; ~~comprises at least part of a non-planar spiral; and~~
a face plate for securing two ends of the restraint to the face plate on a
side of the firearm substantially opposite the at least 60% of the surrounded
circumference of the breech;
a wall plate for slidingly securing the face plate to the wall plate,
wherein the wall plate is capable of being fixed to a wall; and
a lock between the face plate and the wall plate to secure the face plate
to the wall plate.

S/N 10/736,027

Response to Final Office Action Dated 7/20/2005

a means for securing the restraint to a secure surface.

3-10. (Canceled)

11. (Currently amended) A restraint for securing a gun, comprising:
a rigid member to hold the firearm around a breech of the firearm, such that at least 60% of a circumference of the breech is surrounded by corresponding parts of the member at substantially equal distances of approximately 3 millimeters or less between each part of the surrounded breech and corresponding parts of the member;

wherein the member is insertable through a trigger guard of the firearm, such that a curvature of the member avoids a trigger of the firearm; avoids a trigger guard of the firearm, avoids a bolt of the firearm, avoids a gunsight of the firearm, and avoids an optical scope of the firearm; and

wherein two ends of the member are securable to a face plate on a side of the firearm substantially opposite the at least 60% of the surrounded circumference of the breech, the face plate in turn lockably securable to a wall plate affixed to a wall.

~~a gun through a trigger guard of the gun and around a stock of the gun,~~

~~wherein the member includes fasteners to secure the member to a secure surface and~~

~~wherein a curvature of the member comprises at least part of a non-planar spiral.~~

12-20. (Canceled)
